

Electronic Heat Detection

Who should know how to use it on your farm?

Electronic heat detection

What is Electronic heat detection?

How does it work

What to look for in a EHD system?

Electronic heat Detection

How does it work on farm?

What is best about it for farmer

What is best about it for the service provider

Electronic heat Detection

What are its Pit Falls on farm

What are its pit falls behind the scene I:E set up

Electronic heat Detection

Data who enters it?

Should Service providers enter it for farms?

Bit of research I have done (farmers say its up to them not service provider)

Electronic heat Detection

If your going to invest in this technology - who else on farm needs to know how to use it

What are some of the things to consider when you invest in this technology

ELECTRONIC HEAT DETECTION

Farmer case study before EHD
and after
